

Safety, Connectivity & Traffic Calming Process

Neighborhood issue ID

Neighborhoods identify and prioritize safety and connectivity issues.

School issue ID

Schools submit prioritized issue list.

STEP

2

Community Feedback

City Council will seek community feedback on the presumptive four year project list and adjust based on comment.

STEP

4

Community review of 4-year project list

City Council will hear feedback on the 4-year project list.

STEP

6

Neighborhoods with the support of ONS will continue to review neighborhood issues, in preparation for the next cycle. This process will include the review of constructed projects.

STEP

1

ICM System Analysis

ICM will prepare a system wide analysis and propose projects to address neighborhood issues.

City Council TC subcommittee

Review of project list and neighborhood prioritization for construction cycle.

STEP

3

Budget review for project cycle

Four year project list proposed equal to the money available for the construction cycle.

STEP

5

City Council TC subcommittee recommendation to full council

City Council Approval
